TEACHERS' ASSOCIATION.

We are glad to say that the association grows more instructive, interesting and energizing at each meeting of its busy, wide-awake members. Although the attendance is not by any means what it should be, yet we do not feel at all disengaged and trust that in the near future every teacher and patron of the association will become interested in the association and give it their hearty support.

The common schools of the country need a reconstruction so as to put them on a practical footing with other institutions of our age. They need to be graded and have a systematic course of study adopted, with proper authority given to the superintendent to enforce the plans. By the enforcement of these alone a great interest would be awakened on the part of the patrons; schools would be compared and contrasted; competition among the schools would be aroused; definiteness of work would be secured; all the children in the county would be pursuing the same studies and the same course of studies, uniform to complete the course would be aroused; graduation exercises would be established; emulation among the schools as to percentage of attendance would be aroused; a pride in each school with regard to its standing as to its fullness and regularity of attendance would be excited and so every neighborhood would discover a new interest in its school because it was in relation and comparison with all the other schools. Another great need is more spacious and better furnished houses; built in the most convenient, healthy and attractive places in the districts. If you would glance into some of the school-houses at the present time, you would see nothing adoring the walls which would give a cheery atmosphere to the school; no apparatus with which the teacher can make his work more effective, long and rickety benches filled with a dozen or more children seated so closely together that their position is anything else but comfortable, and many other inconveniences, too numerous to mention.

We have given here some of the defects of our common schools, but the next thing of importance is how can they be remedied? The only sure way is to persistently urge upon the legislature to give such legislation as is necessary to meet these requirements. No doubt but that the majority of the legislators do not know the practical needs of the common schools; therefore it is very important that they should be informed as to these necessities and entreated to act upon them speedily.

But there is much that can be done independent of the legislature. The patrons can send their children more regularly; the teachers unite more closely; the schools can be graded to some extent, and course of study adopted, all of which would put the common schools in a much better condition than they now are. And we would insist upon a movement of this kind being made in the county. Although there would not be much accomplished the first year, yet it would be a move in the right direction, and by continual agitation and earnest efforts, glorious victories would be achieved.

It is to be a black winter in the dress sense. Women as well as men are taking to black attire. The queerest eccentricity of sweet woman's whim for black, however, is not the bridal stocking, with its beautiful design and lustrous, but the silk tights that have become part of the fashionable female attire. The tights are stockings that extend to the hips, just as they are worn on the comic opera stage.—New York Sun.

One of the largest cigarette manufacturers in New York, testified on the witness stand last week, that he annually bought about 200 tons of cigar-stumps and odds and ends of tobacco picked up in the gutters and on the streets of the cities all over the Union, and that this kind of tobacco goes into the most popular brands of cigarettes.—Ex.

Every year a layer of the entire sea, 14 feet thick, is taken up into the clouds. The winds bear their burden into the land and the water comes down in rain upon the fields, to flow back through rivers.

"Big Liz" Carter, a Cincinnati negro, was found guilty of murder in the first degree. She poisoned her paramour, with whom she had lived a number of years.

HUSTONVILLE.

—Rev. John Little, pastor of the Baptist church, has removed to Perryville, where he will preach twice monthly. He will continue to devote one Sunday of each month to the Hustonville congregation and one to the Bradfordsville church.

—Rev. W. L. Williams preached a most able and interesting sermon on sanctification to a crowded house at Moreland Sunday morning, 9th inst. But a few weeks ago there was a "Holiness Meeting" of several days' duration held at the Moreland church, which excited great interest and as the many professions of sanctification, or sinlessness, were fresh in the memory of the people, it was anticipated by many that Bro. W. L. would strike some stinging blows, but the sensationalists and fault-finders were disappointed.

The discourse was in Mr. Williams' happiest vein, logical throughout and utterly devoid of that ferocity we expect when prepared for an onslaught against one of our pet dogmas. Not even a suspicion of propaganda can attach to the discourse. It will be intensely gratifying to the great number of Mr. Williams' friends, to know that instead of renouncing the harness, as he felt four years ago would be a physical necessity, he has renewed his lease and is again a "host within himself."

—Isn't the prominent republicans' explanation of the late ground-swelling amusing? It is not amusing, either, to the farmers to be so plainly styled a set of consummate asses. No reference to any benefits accruing to farmers from the McKinley bill, which generated the cyclone, but the increased industries which will spring up in consequence will demonstrate the benefits of that bill a year hence, and the agricultural asses will contentedly resume paying extra tribute to the favored manufacturers who furnish republican campaign managers boulds for buying elections, are the sum and substance of John Sherman's views of their defeat. A creature of the republican party, whose egotism insures his turning the small end of the telescope on nearly all of creation—a malignant individual whose slanderous pen seemed him an introduction to the toe of Joe Blackburn's boot, compliment his radical affiliates highly in his explanation of their apostasy, meaning to ridicule them. He accredits the average republican with being reasoned into voting by his wise description of the intricacies of the increased tariffs instead of being bought or driven.

WAYNESBURG.

—L. G. Gooch has bought G. A. Padgett's farm at \$10 per acre.

—Eld. B. C. Medaris, editor of the Mountain Baptist of Waynesburg, the schools can be graded to some extent, and course of study adopted, all of which would put the common schools in a much better condition than they now are. And we would insist upon a movement of this kind being made in the county. Although there would not be much accomplished the first year, yet it would be a move in the right direction, and by continual agitation and earnest efforts, glorious victories would be achieved.

MIDDLEBURY, CASEY COUNTY.

—Thanksgiving services will be held at the Baptist church.

—Any one wishing to buy fat, say about 250 pounds, will do well to call on Perry Wesley.

—There will be a wedding here in about a month. We would give names, but we are under oath not to.

—W. M. Holland has purchased a fine pair of horses and a stage and will open up a line from here to McKinney shortly.

—L. D. Williams, our clever and hustling druggist, will leave in a few days for Point Bumside to handle bottles there.

—The spelling contest was largely attended at the college. It continued two hours, when Miss Willie Gann's side was declared winner.

—We have not learned yet what the committee has done in regard to building a graded school here, under the auspices of a Baptist denomination, but hope they will push it through, for the people of the community seem interested in the matter.

—W. J. Gann was in Pulaski this week. John Welcher went to Lexington Saturday. L. D. Williams went to Somerset Tuesday. Bud Ray, of Taylor, county, was here Monday. Drummers were as thick as flies in town this week.

—Willie Bryant has recovered from a few days' sickness. Sewing machine and boot agents have kept the town lively for the last week.

—On Tuesday evening two of our best boatmen for claim to be undertaken to ride on waves where no other man dared to venture. They rowed to the spot and were bragging of their venture, when all of a sudden without any warning to them the boat turned over and they were left to swim, kick or die. When they reached dry land they were the sickest pair that ever tried to take a ride. Ask Isaac Wesley about the rest.

—George, a son of B. K. Swope, died here last Friday of brain fever, after an illness of only a few days. He was the youngest son of Mr. Swope and was a bright and industrious boy. He was in his teens and possessed a good character and had a pleasant word for all who knew him. His death cast a gloom over his friends and associates. His remains were taken to Garrard county and laid to rest. We deeply sympathize with his stricken parents.

—The people of our town are raising a terrible racket about the way our mail is carried on and will try to have it changed if they can. The mail comes, as some of our nearest towns know, from Kingville here by the way of Yosemitie, and from the latter place by hack line, which has to cross Green river, which is past border half the time and our mail is generally a week old from laying over at Yosemitie. The line could be run from McKinney, as it once did, and we would have our daily mails. We hope our town people will have it changed, so we can have a mail once a year, any way.

HUBLEE.

—Mr. Clark Farris, who has bought the line from Lancaster to Danville, is a splendid hack man and everybody is pleased with him.—John Bright is improving rapidly now. James Herring is convalescent.—J. J. Walker bought a sorrel horse from B. F. Engleman for \$125.—Foster Engleman, of color, aged 90, died Tuesday. He was a good old man.—Mrs. Blackerby sold four steers, averaging 1,200 to Monte Fox at 3 cents. Protracted meeting here is moving along nicely with good attendance since it cleared off.—Teesee are in demand here now and turkeys have advanced to 6 cents. James Engleman is improving his farm by building a barn and meat house.—Measles are raging in this vicinity and whooping cough is going the rounds too.—F. Rigney is on the puny list again.

A MODERN NEWSPAPER.—For excellence, high character, reliability, variety, enterprise and cheapness the Cincinnati Weekly Gazette (the weekly addition of the Commercial Gazette) can not be surpassed by any other newspaper in America. It is all that the heading of this notice would indicate—a modern newspaper. With all its attractions it can be had at \$1 a year.

—"Yours Merrily, John Rogers" and his wife, pretty Minnie Palmer, the actress, are out. She accuses John of trying to kill her and has fled from him.

DANVILLE, BOYLE COUNTY.

—Mrs. E. M. Green, whose death you reported, was taken to Columbia, S. C. for interment.

—Measles in a severe form are raging in the town and county, scarcely a family having escaped.

—Main street, between Second and Fourth is having a layer of macadamized rock put on, which will help us out of the mud somewhat this winter.

—This bit of church history has recently come to light. The house in which the first Methodist class meeting was held is still standing and is situated about 7 miles west of this place. The time of the meeting was in the year 1783.

—A protracted meeting at the Baptist church, to begin next Sunday, will be conducted by the pastor, J. W. Lynch, assisted by Rev. Mr. White, of Durban, C. The church is having prayer services every night this week, preparatory to the meeting.

—Some people have cheek enough to ask anything. Did you ever! How is this for downright gall? A man asked a merchant for a pocket-book on credit; it's a fact. Can you tell me what use he would have for the book if he had no money to put in it?

—It seems that the grasshopper shower, which I reported in my last, was only confined to a small portion of town, just in the locality of Lexington and Fine streets. Some ladies living in that locality, whose veracity could not be doubted, are responsible for the item.

—J. W. Sturgeon, of Barren county, bought this week of I. M. Quisenberry his farm in the West End, consisting of 131 acres for \$4,000. Mr. Q. has bought since of W. W. Wallace his farm on the Shakertown pike for \$5,000. Dave W. Dunn bought, Monday, of Dr. Fayette Dunlap, his property on Broadway and Fourth and will move in the first of next week. Dr. D. bought it a short time ago and his and his sister, Miss Mary, had gone to housekeeping. Henry Dunn and family will move Monday to the house on Main street recently vacated by Archer Robinson.

—Miss Kate Kinnaird, of Lancaster, is visiting Miss Sadie Cecil. J. B. Marrs and daughter, Miss Hattie, spent the day here Monday. The following young gentlemen, members of the McCreary Guards, were here Monday night to take part in a play at the Opera House, in which the Lyon Comedy Company have engaged for the week: Letcher Dowsley, Ed Hughes, Sam Jennings, Ed Finley, Wm. Walden, Harry Carrington, J. M. Rothwell and Charles Blanks. Carroll Reiland Gill Boyle have gone to Longview, Ala., on a hunting expedition. Frank Gilcher and wife and Mrs. Marks visited P. A. Marks in Harrodsburg.

This is not an "off year" in a national sense, for it is the year of a Congressional election, and the general interest was not less than in a presidential year, tho' there was not so much picturesque incident.

It is the year of reckoning with republican abuse of power—an abuse shown most flagrantly in the contemptuous treatment of the minority in the House, in the monstrous excesses of the tariff and in the flagrant defiance of the official honor and honesty in the republican campaign in Pennsylvania. The election has demonstrated anew the political health and vigor of the country. It has shown that there is a patriotic spirit superior to party spirit, a conservative independence strong enough to resist the dragooning of party and to stand fast for wise and honest conviction.

The people of our town are raising a terrible racket about the way our mail is carried on and will try to have it changed if they can. The mail comes, as some of our nearest towns know, from Kingville here by the way of Yosemitie, and from the latter place by hack line, which has to cross Green river, which is past border half the time and our mail is generally a week old from laying over at Yosemitie. The line could be run from McKinney, as it once did, and we would have our daily mails. We hope our town people will have it changed, so we can have a mail once a year, any way.

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., NOVEMBER 21, 1890

W. P. WALTON.

Those who imagined that Hon. Willard F. Browder had been either wounded or slain by the discharge of Gov. Knott's artillery will find by perusing his four column reply in Tuesday's Courier-Journal that they were laboring under a mistake. He comes smiling up to the scratch and with the governor's favorite weapon of irony and sarcasm dresses him down about as gently as it could be done. The controversy grew out of Gov. Knott's speech favoring the giving of the legislature the right to revoke charters and is becoming decidedly interesting. Gov. Knott's surrenders will be looked for with interest. As it now stands Mr. Browder has the best of the argument. He has shown himself a foeman worthy of the steel of the great sword fighter and his letters have done much to show the absurdity of the prejudice against corporations, thus designating people have sought to instill in the public mind.

The negro Langston, who was given Venable's seat in Congress and \$10,000 by the thieving party in power, has served notice that he will contest Mr. Epp's seat in the next body, although there is a majority against him of nearly 4,000. Of course he does not expect to get it, but he does count on the \$2,000 usually allowed to contestants. It is to be hoped that the next House will adopt a different rule and disappoint the human mule on the very object he is banking on.

In this democratic year of our Lord it is not safe to concede anything to the republicans. They have been claiming California's delegation solid, but the official returns show that two democrats are elected to Congress from that State—from the 1st and 2d districts. The official count also gives the democracy another member from Michigan and if this thing keeps up the republicans will not have enough representatives in Congress to demand the yeas and nays.

THE Cincinnati Commercial Gazette states that John G. Carlisle's "pressing business engagements" which kept him from attending the Thurman banquet was a card party in Newport, and that the real reason that he failed to attend was that he did not want to sit next to Ex President Cleveland around the board. The absurdity of the story furnishes its own denial and renders it unnecessary for the senator to notice it.

The official returns from the bloody 11th are at last all in and they show that John Henry Wilson pulled through with 3,708 plurality, although Harrison carried it by 9,406. The total vote was, Wilson, 9,612; Howard, 5,904 and Chestnut, whom Breckinridge called himself to order and nominated for the prohibitionists, 311, 90 of which he got in Franklin. Wilson carried all the counties but Bell.

It is the height of absurdity to talk of holding the convention to nominate candidates for State offices in January. The con. con. will not have decided by that time what offices are elective and when the election shall be held. Next June is time enough for the convention, that is if the Frankfort tea party will have adjourned by that time.

The Glasgow Times says that Will Hull is back on the Courier-Journal, which he left temporarily to be agent for Julia Marlowe. The company has disbanded, owing to the serious illness of the star. All the newspaper men will be glad to see him in the harness again as they were surprised at his freak of casting it off.

CORPORAL TANNER should thank his stars that Harrison kicked him out of the pension office. His position as commissioner paid about \$5,000 a year. Immediately on being ordered down and out he hung out his shingle as pension claim agent and it is stated that he has already made \$197,000.

REED's democratic opponent for Congress has decided not to contest his seat, but will lay before Congress the peculiar election methods by which the bulldozer was returned to Congress. Even if there is no contestant, it appears that Reed ought to be turned out on general principles.

It cost the government \$1,010,270 to print its money this year. It could be done for less than half that amount on cylinder presses, but the printers and pressmen demand that it shall be done entirely on hand presses, and those in authority are afraid to ignore it.

It seems a settled fact that Don Dickerson will be elected U. S. Senator from Michigan. The legislature will re-district the State and secure the other Senator in 1895. The delegation in Congress will stand ten democrats to one republican.

In spite of the opposition of the alliance, Gov. Gordon was elected U. S. Senator from Georgia on the first ballot. This puts another rebel brigadier in the saddle. He will take the place of Senator Brown, who declined re-election.

An employee of the Senate document room, E. P. Cunningham, who is a relative of the late John A. Logan, went into the White House and obtained entrance to President Harrison's room, began to vilify and abuse him for being the cause of the republican defeat. He finally applied to him the vilest epithet known to the language of rowdies, when he was seized and hurried to jail. The president made no effort to defend himself by word or act, but grew as pale as a sheet. Cunningham is the same fellow who, in 1885, during Cleveland's reign, fired off a big canon in front of the White House to celebrate the re-election to the United States Senate of John A. Logan. He was arrested then and several republican papers tried to make a martyr of him, a Cincinnati sheet going so far as to take up a public subscription for him. What do they think of him now?

The more we read the demagogic proceedings of the con. con. the more we become reconciled to the biennial meetings of the legislature. What was supposed to be an aggregation of great men is proving a body of miserable time-servers and record-makers, with a precious few honorable individual exceptions.

THURSDAY entered the brick meat house of S. W. Givens, Saturday night, and helped themselves to a half dozen or so nice hams. WHILE Misses Mary Bruce and Emma Owsley were out horseback riding Wednesday afternoon, the latter's horse became frightened when near Mr. John Bright's and took out at a break-neck speed. Miss Emma was unable to hold him, but managed to keep her seat till the toll-gate was reached. Here the excited horse broke through the gate and threw the rider to the ground with great force. It seemed a miracle that she was not killed, but fortunately, except a number of bruises and a few scratches, she was unharmed. The little lady was scared nearly out of her wits, though, and it will likely be some time before she attempts another ride.

Fish, of Pineville, to Miss Arthur, of Williamsburg, has been fixed for the 27th, Thanksgiving day, we suppose because John wants to emphasize his thankfulness for winning so beautiful and so lovely a woman. —In the last issue of the Western Recorder will be found some resolutions of the Tennessee State Baptist Convention on the temperance question which we commend to the careful perusal of the rantauroous people, who want to do by legislation what the church can only successfully accomplish. The resolutions oppose the adoption of anything that will in any way be reasonably interpreted into converting the Baptist denomination into a political machine, looking to low or high license, to local, state or national prohibition, and its ministers are requested not to identify themselves with outside organizations to their injury, but devote their time to preaching the morality of the gospel, confident the solution of this particular feature of intemperance, as well as all intemperance, is in the constant, persistent and never ceasing business of preaching repentance toward God and truth toward our Lord Jesus Christ.
